Please describe your overall experience with the IMPACT kick-off meeting
It was a very complete and well-scheduled meeting which, from my point of view, addressed all relevant issues regarding the beginning of the project.
What did you like in particular?
Although we had short time for each sub-meeting, a general overview of every important aspect of the project was discussed with partners.
Please comment on the balance between the different topics that were discussed
As previously commented, I feel this was a different topics were well-balanced combining research aspects with practical implementation and dissemination.
What would you suggest to add or reduce or focus more in the next IMPACT meetings?
Probably not for the kick-off meeting, but in next meetings smaller sub-groups should be generated in order to work in parallel. Although this is a very complete consortium, probably in order to promote participation of different experts, different functions in different groups should be proposed.

Please describe your overall experience with the IMPACT kick-off meeting
Well organised and very pleasant and very fruitful. Just as a good kick-off ought to be.
What did you like in particular?
Everything and all in particular
Please comment on the balance between the different topics that were discussed
No comment
What would you suggest to add or reduce or focus more in the next IMPACT meetings?
Sustainability of the project.

Please describe your overall experience with the IMPACT kick-off meeting
Nice experience with all partners bringing their unique perspective on the topic
What did you like in particular?
The positive climate, the effective organization of the meeting and the well-thought contributions
Please comment on the balance between the different topics that were discussed
Overall very good balance, perhaps the theoretical part could be reduced a bit
What would you suggest to add or reduce or focus more in the next IMPACT meetings?
Focus more on the practical aspects of the intervention

Please describe your overall experience with the IMPACT kick-off meeting
A very positive experience. A well prepared and well organized meeting. Congratulations
What did you like in particular?
The agenda was detailed and timely and participants had the opportunity to express themselves and to give their opinion; Convivial evenings were organized.
Please comment on the balance between the different topics that were discussed
The planing was "balanced". The most important discussions were devoted to the most important topics/issues of the project.
What would you suggest to add or reduce or focus more in the next IMPACT meetings?
To reduce the size of groups (to keep only academic partners) to reflect on and progress regarding the outstanding points of the project (variables to be measured, content of the training). Specific proposals can then be made to the entire consortium

It was a great opportunity to meet highly estimated scholars and like minded professionals, to make some valuable discussions and to exchange ideas about the very interesting subject of the project "Identifying and Motivating youth who mostly need Physical ACTivity"

Please describe your overall experience with the IMPACT kick-off meeting
The meeting was great with a democratic environment for all kinds of discussions. The discussion sessions were a little bit long and it was hard to stay concentrated on a huge amount of work. The partners and the coordinator are in full harmony and the coordinator has established a great partnership. The coordinator has planned a very well organized meeting in a friendly environment.
What did you like in particular?
A lot of things actually.
Please comment on the balance between the different topics that were discussed
The topics were well balanced but all of them need further discussions. The time period was too short for each discussion and therefore we did not reach conclusions. However, the discussions created a meaningful skeleton of the study at least underlined the important aspects that we have to search about.
What would you suggest to add or reduce or focus more in the next IMPACT meetings?
The points to be discussed should be clarified before the meeting and we should have a schedule at least 15 days before in order to have a brief literature review or report (for ourselves) about the topics to be discussed.

Please describe your overall experience with the IMPACT kick-off meeting
It was a nice environment having fruitful discussions.
What did you like in particular?
The experience of partner institutions and having say about the project.
Please comment on the balance between the different topics that were discussed
What would you suggest to add or reduce or focus more in the next IMPACT meetings?
Discussing in smaller groups might be more time saving.

Please describe your overall experience with the IMPACT kick-off meeting
The meeting presented the necessary information about the project in a short time.
What did you like in particular?
Presentation, in the level of the listeners and in the way was presented. At the end of the presentation, the important points were summarized and evaluated. Only some of the topics will be clear in time. I liked having a regular and scheduled meeting.
Please comment on the balance between the different topics that were discussed
There was a balance between the topics discussed.
What would you suggest to add or reduce or focus more in the next IMPACT meetings?
I would like to focus more on project content and implementation process.

Please describe your overall experience with the IMPACT kick-off meeting
Very good consortium. Great hospitality of the host (University of Thessaly).
Long travel from the airport in Athens.
What did you like in particular?
Preparations before the project meeting. Presentations of the partners. Good interaction between the partners. Working climate in the consortium. Good time management of the host.
Please comment on the balance between the different topics that were discussed
Good balance (content/administrative details ...).
What would you suggest to add or reduce or focus more in the next IMPACT meetings?
With regard to the content: nothing (as it was already ideal)
With regard to the travel: try to reduce the travel time.

Nothing more to add about the IMPACT kick-off meeting or the organization of next IMPACT meetings.

With regard to the evaluation: it was not clear how the rating scales work (is 1 best or 10?). As it was not possible to skip the questions always "5" was clicked.

Please describe your overall experience with the IMPACT kick-off meeting
The overall impression was very good. The organization of the timetable of the meeting was also perfect. The project seems huge but Professor Papaioannou was very clear with all the steps to reach. The atmosphere between colleagues was also positive and collaborative.
What did you like in particular?
The constructive and collaborative atmosphere between Professor Papaioann and all the colleagues. The Papaioannou's ppts were also very clear.
Please comment on the balance between the different topics that were discussed
I think it was a good balance between the different topics that were discuss. From presentation until the budget part, everything was simply explained. Off course, after the meeting back home, I have many more questions to do.
What would you suggest to add or reduce or focus more in the next IMPACT meetings?
I think to add the IMPACT meeting could be a good thing because to discuss face to face about a topic is much better than write an email or use a online conference. To share ideas is much more useful to do one to one or all together. More overe, the meetings have that extra free time to know each others better and give the opportunity to understand the difficulties/strong points of the other countries.
